

# Food Truck requirements

- All catering/mobile food vending trucks need to obtain a Food Truck license from the Village of Skokie/Skokie Health Department.
- Food Truck operators must provide copies of their jurisdictions Health License and their most recent inspection report (within the last 6 months).
- Then each Food Truck operator will need to schedule an inspection with the Health Department to check their truck for compliance.
- Once each Food Truck passes their inspection the Food Truck operator must pay their annual mobile food vendor license fee (handled by Building Department).

These annual permits are typically renewed starting in April every year.  
Health Inspections are randomly conducted to assure compliance.

The annual mobile food vendor license form can be found at this web link below
