ORDER OF THE SKOKIE HEALTH DEPARTMENT DIRECTOR COVID-19 PUBLIC HEALTH PROOF OF VACCINATION

Issued: December 23, 2021

First Amended and Re-issued: January 4, 2022

Effective Date: January 10, 2022

On January 27, 2020, the United States Secretary of Health and Human Services declared that COVID-19, a respiratory illness spread by close contact through respiratory droplets, presents a public health emergency.

The Skokie Health and Human Services Department is an Illinois certified local health department granted authority and powers under Illinois state statute. The Skokie Health and Human Services Department is responsible for determining when a danger to the public health exists within its jurisdiction, and to order measures deemed necessary to protect the public health until such time that the danger to the public health is eliminated or reduced in such a manner that an immediate threat no longer exists.

The United States and the State of Illinois are in the early stages of a large surge of COVID-19 cases due to the Omicron variant. The Skokie Health and Human Services Department has determined that mitigation measures are necessary to protect the public health.

Therefore, pursuant to the authority granted by the Illinois Public Health Act (20 ILCS 2305/1.1 et seq.); the Illinois Department of Public Health Powers and Duties Law (20 ILCS 2310/2310-15 et seq.); and the Skokie Village Code Section 2-295 it is hereby Ordered:

Indoor settings where food or drink are served for on-premises consumption, and health and fitness centers:

- Businesses must require any individual 5 years of age and older to show proof that they are fully-vaccinated against COVID-19 with an approved vaccine in order to enter the establishment.
- Businesses must require Patrons age 16 and older to show identification (including but not limited to driver's license, passport, government ID, work or school ID) with information that corresponds to the vaccination proof.
- Businesses must post signage advising patrons of this vaccine requirement. Such signage must be posted at all entrances to the premises as well as prominently posted in an area visible to patrons and staff within the establishment.
- Businesses may, in the interests of efficiency, allow patrons to provide the required vaccination proof prior to entry, either directly to the business itself or through an intermediary such as an event planner.
- Employees must be vaccinated or must weekly show proof of a negative COVID-19 test.

- Businesses must develop a written protocol providing details for how they will enforce this Order.
- Any individual who attains 5 years of age on or after the effective date of this Order shall be entitled to a grace period of 6 weeks, to allow time for the individual to become fully vaccinated.

Indoor settings where food or drink are served for on-premises consumption, and health and fitness centers include but are not limited to:

- Indoor dining establishments, including bars, breweries, wine/spirit tasting rooms, restaurants, private clubs, country clubs, banquet halls, dining areas within any public business that is ancillary to the main business (cafes within grocery stores, other retail, etc.) coffee shops, food courts and food halls;
- Event spaces, including hotel ballrooms and commercial event and party venues and nightclubs;
- Recreation and entertainment venues in areas where food or beverages are served, including movie theaters, live performance spaces, including live theater and live music, sports arenas, skating rinks (spectators), adult entertainment venues, arcades, bowling alleys, play spaces, family entertainment centers, billiard halls, and venues for card playing; and
- All indoor settings for recreation and exercise, including health clubs, gyms, fitness centers, hotel fitness centers, recreation centers, yoga studios, cross-fit studios, cycling studios, dance studios, fieldhouses, boxing and kickboxing gyms, skating rinks (skaters), and other facilities conducting group fitness classes indoors.
 - All sports participants playing indoors should continue to follow the Illinois Department of Public Health [Sports and Safety Guidance](#).

All businesses shall comply with OSHA standards 1910.501(e) & (g) relating to employee vaccination status and testing, regardless of the number of their employees.

An individual is considered fully-vaccinated:

- Two weeks after their second dose in a two-dose series with an approved COVID-19 vaccine, such as the Pfizer or Moderna vaccines, or
- Two weeks after a single-dose series with an approved COVID-19 vaccine, such as Johnson & Johnson's Janssen vaccine.

An approved COVID-19 vaccine is a vaccine that has been authorized or approved by either the Food and Drug Administration or the World Health Organization to prevent COVID-19, whether for emergency use or otherwise.

Proof of vaccination means:

- A CDC COVID-19 Vaccination Record Card; or
- An official immunization record from the jurisdiction, state, or country where the vaccine was administered; or
- An 'app' that provides a digital record of vaccinations; or
- A digital or physical photo of such a card or record that includes the individual's name, the vaccine brand administered, and the date the vaccination was administered.

Indoors means any part of business subject to this Order with:

- A roof or overhang that is enclosed on at least three sides; or
- A temporary outdoor structure that holds multiple parties that has less than 50% of the sides open to allow airflow; or
- An outdoor dining structure meant for individual parties that does not have adequate ventilation to allow for four to six air exchanges per hour.

Exemptions – Individuals:

- Individuals entering an establishment for less than 10 minutes for ordering and carrying out food, making a delivery or using restroom facilities.
- Individuals who have previously received a medical exemption, as long as proof of the medical exemption and a COVID-19 test administered by a medical professional within the last 24-hours prior to entering a business covered by the Order are provided to the business upon entry.
- A nonresident performing artist or nonresident person accompanying the artist who is not regularly performing in a business where the Order applies, but only while in the business for the duration of the performance.
- A nonresident professional athlete or nonresident person accompanying the athlete, who enters a covered location as part of their regular employment for purposes of the professional athletic or sports team competition.
- An individual 18 years of age or younger who enters a business subject to this Order to participate in a school activity or after-school program offered by any pre-kindergarten through 12th grade public or non-public school.
- Any individual 18 years of age or younger participating in youth athletics or recreation, unless such athletic event or recreational activity takes place in an establishment where food or drink is served for consumption throughout the establishment (ex. Concessions sold for consumption throughout an entertainment venue)
- Any individual participating in recreation programs though special recreation for individuals with disabilities.
- Any person entering a business subject to this Order for the purposes of voting in a municipal, state, or federal election; or, pursuant to law, assisting or accompanying a voter or observing such elections.

Exemptions - Business/Indoor Venues: This Order does not apply to:

- Houses of worship and does not limit the free exercise of religion. To protect the health and safety of faith leaders, staff, congregants and visitors, religious organizations and houses of worship are strongly encouraged to consult and follow CDC recommendations for Communities of Faith. Religious organizations are strongly encouraged to take steps to ensure social distancing, and implementation of other public health measures consistent with the provisions contained in this Order.
- K-12 schools, preschools, and child care centers.
- Indoor locations in a residential or office building the use of which is limited to residents, owners, or tenants of that building.
- Charitable food service establishments, such as soup kitchens.

Nothing in this Order shall, in any way, alter or modify the legal authority of the State or any county, or local government body.

If any provision of this Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Order are declared to be severable. This Order is meant to be read consistently with any Court order regarding this Order.

A failure to comply with this Order may result in one or all of the following: (1) a Class A Misdemeanor charge of violating Sections 2(k) and/or Sections 8.1 of the Illinois Public Health Act, (20 ILCS 2305/2(k) and 20 ILCS 2305/8.1)), which may result in a fine, not to exceed \$2500; (2) a violation of Section 2-295 of the Skokie Village Code, which may result in a daily fine of \$750 for each violation; (3) the revocation or suspension of a business license; (4) an order of closure of a business; or (5) a charge of a violation of any applicable law.

This Order shall remain in effect until the Director of the Skokie Health and Human Services department makes a written determination that the threat to public safety has diminished to the point where this Order can be safely repealed or amended.

Michael Charley
Director of Health and Human Services
Village of Skokie
